Project

Our company has been on the market for decades, in this period hundreds of interesting, unique and unconventional projects saw the light of day. Our strong point is our own, dynamically developing graphic design studio. The team working here has great experience, professional skills and creativity, allowing us to provide high quality of our services. Appropriate graphics has a chance to stand out among thousands of projects, and good graphic design is the lifeblood of advertising and a strong marketing tool. Our projects are used for branding, positioning products, creating the image of the company, and thus have a direct impact on attracting an even wider range of customers.

Graphic design is our passion, and thanks to the technological support, access to the best software on the market we are able to realize any, even non-standard designs. In addition, we advise and assist in the implementation of each project, advise on selecting the appropriate materials to be

used. Thanks to our graphic arts the client can get an original logo design of their company, interestingly designed business cards, leaflets, brochures, catalogues, as well as eye-catching exterior graphic elements – banners, light panels, signs, etc. We also have rich experience in typesetting and printing of publications books, albums, photo-books, as well as regional newspapers.

We approach each project individually, we are able to listen to the needs of clients and, based on them, we perform highly rated designs.

We provide services to small and large companies, state and local institutions, advertising agencies, other printing and individual clients. The best proof of our quality standards and skills is our rich portfolio and a database of companies that have trusted us.

More than meets the eye

Gift Cards

Loyalty or discount cards are the key elements of loyalty programmes with which the company establishes long-term relationships with clients. Cards can be honours for a specific group of customers, e.g. VIP. A satisfied customer using the card makes regular purchases and recommends products/services to their friends or family. We can prepare the gift cards on paper or plastic.

Posters

Absag is a printing company in Dubai offering the full range of print services to a variety of clients operating across many different industry sectors. We are a one - stop shop for all your printing requirements; our customized solutions are tailored specifically to your individual needs, ensuring the best results every time throughout the pre press, printing, finishing and binding process.

Flyers

A popular tool for marketing and advertising are leaflets. Through various types of distribution channels they reach broad audiences and are an important source of acquiring customers. We offer a wide range of leaflets on a variety of formats and our own graphic design studio makes our leaflets arouse interest to the public. We print our issues from the A7 to A4 size.

Folded Leaflets

An interesting form of advertising leaflets are also folded leaflets. They perform the same function as normal flyers but can contain much more information. The most popular options for typesetting are "U" and "Z".

Banners

For years advertising banners have been enjoying great popularity, and their main advantage is big versatility and ease of transport and assembly. More than that banners can be freely adapted to the individual needs of the client. In our offer you can find a wide range of visual advertising. We make banners single- and double-sided printed on high-quality materials characterized by full colour and sharpness of colours.

Mesh

Mesh banner is the best solution for outdoor advertising in windy areas or on large surfaces such as e.g. facades of buildings. The structure of the material allows the wind to go through and there is no damage to the material or system.

Stickers

Stickers printed on various types of foil play an important role in the functioning of large companies. Their main advantage is a broad spectrum of bases on which they can be applied and any shape, size and colour. As a direct manufacturer we offer stickers both the matt and flash, and the orders are within a short time. We have our own qualified installers who perform sticking them on sites, cars, billboards, hanging banners, etc.

Roll-Up

The roll-up is a very functional and practical promotional and advertising carrier. Its main advantage is its lightweight aluminium construction. The internal cartridge with graphics allows you to quickly disassemble and assemble it anywhere. Everything is housed in the cover, which facilitates convenient transportation. In addition to advertising a roll-up can be used as a carrier of information and organization, thanks to which it is very often used for promotional purposes on training symposia, etc.

We offer roll-ups available in the formats 80x200, 100x200 and 120 x 200 cm.

Posters

Show your design in a large format and stand out among others. Posters give unlimited transfer of information. Our unique offer includes posters in rare formats that you can specify on your own.

Wallpapers

We offer printing on wallpaper and even a picky client will find something for themselves.

We print any graphics on the following types of wallpaper:

1. paper wallpaper:
 - whiteback with latex
 - paper wallpaper + pvc
 - paper wallpaper with water-activated adhesive
2. wallpaper with primer flizeline basis:
 - paper wallpaper + pvc
 - wallpaper of fiberglass water-activated adhesive
 - self-adhesive polyester fabric

Car stickers

In times of high market competition you should opt for car graphic sticker. The main advantage of this form of advertising is its mobility, the impact on the broad masses of customers and above all being free of charge!!!

We offer our clients comprehensive services in this area. The car may be covered entirely using high-end cast foils, and to the rear and side windows can have the DWV foil (One Way Vision). The foils are printed on the most modern plotters allowing to stand out with print quality. We secure the print with laminate.

PVC Boards

Boards are advertising carriers used outdoors and are resistant to weather conditions. We have boards of various weights, lined with monomeric foil or we print directly on it (UV printing), and for longer exposure we additionally laminate it. Boards can be used as signposts in the urban space, signboards, promoting services or products.

Plexiglass boards

Translucent self-adhesive foil is applied on the boards whose basis is plexiglass. The foil may also be used in backlit graphics and other transparent underlay e.g. glass. The combination of plexiglass and foil works on bulletin boards, spatial forms and letters, backlighting or skylights.

Flags

Due to their original form advertising flags are becoming increasingly popular. They are easy to install, which causes that they are widely used, in the urban areas as well as wider open spaces. Advertising flags that we offer are available in different sizes and shapes, and to attach them we use aluminium masts with various types of stabilizers - a base for water or sand, screw augers into the ground etc.

A-boards

An important advertising tool is also a free-standing advertising board, particularly useful as a medium for information and advertising locally, exposed in front of a store or company. The essence of the a-board is to attract and inspire interest in your product or service, so the quality of the reproduced image is important. We offer our clients boards in different sizes, from A2 to B1, both single and double sided, made of anodized aluminium. There are also wooden boards, with a board for writing, for example changes to the menu, slogans, etc., and a-boards the type of windtalker boards, with a stable base filled with water or sand.

Blueback

Blueback paper with blue insulation from the base, is designed primarily for covering billboards or as a material for large format posters. It is relatively inexpensive paper, used mainly for short advertising campaigns and promotional activities. Large format prints on this type of the paper are resistant to moisture and UV light. We also provide all our customers with installation at convenient times.

Canvas

Canvas is a kind of fabric on which you can print perfect photos in full colour, sepia and grayscale. Canvas prints are a great form of presentation of photos e.g. on different occasions like weddings, family meetings and presenting various graphics.

We offer our clients a complete service from design to stretching on wooden looms.

Gadgets

Gifts, gifts, gifts. Who does not like to get ... and it is even better to give them. If you want to thank customers, contractors, distinguish someone or to show liking, create your own individual gift and delight the recipient.

Mugs

Mugs, thanks to its usefulness and widespread use, are an ideal medium for advertising. As a company gift or gadget it works on any occasion. Mugs with your photo, a dedication or a sentence can hit the desk of all the employees in the company, they can be a memorial after a successful meeting or impress with their originality. We produce small series and single copies, also on the material entrusted by the client.

Pens

One of the promotional gifts given to customers is a pen. This relatively inexpensive gadget usually helps improve the opinion of the company, but in practice a long time of using it means promoting the company's services or products.

We offer clients both plastic and metal pens. Depending on the material from which the pen is made we usually use etching techniques, or pad printing. The minimum number starts with 50 pieces.

Flash drive

Imprints on USB storage devices complete our offer. Direct printing in full colour takes full advantage of the print surfaces. A personalized USB memory is a great marketing product with a wide range of applications.

Large Format

What would advertising be without a banner, roll-up or poster? Let yourself be seen through outdoor advertising in various sizes and forms. In size we are only limited by our imagination, and you?

Printing

We print, fold, glue, bind and create for you all that offset and digital printing offers, whether it is a simple business card, flyer or catalogue, and perhaps you need to have non-standard documents in your company to make records of trade in goods, finance or other things? You are in the right place.
